ABOUT ME

I am a results-driven Web Developer with a passion for creating responsive and user-friendly websites. My expertise spans both front-end and back-end development, leveraging technologies like HTML, CSS, and JavaScript. I excel in problem-solving and project management, ensuring seamless digital experiences through effective collaboration. I continuously seek to optimize web performance and enhance user engagement.

EXPERIENCE

Web Developer

Nutz Tech Private Limited

📅 06/2024 - 09/2024

Travel agency providing various travel services.

- Developed a responsive and user-friendly travel agency website using React.js and Tailwind CSS.
- Designed to provide a seamless browsing experience for users looking to explore travel destinations, book tours, and access essential travel information.
- Focused on intuitive UI/UX, fast performance, and dynamic content rendering.

PROJECTS

Consultancy Project

📅 2023 - 2024 📍 Perundurai, India

- Developing an e-commerce website for a Ghee product requires frontend development with **HTML, CSS, and JavaScript**, and backend development with **PHP** to handle transactions, user authentication, and order management. A **day-wise sales report** can be implemented using PHP and a database like **MySQL**.

Wonders Of Handmade

📅 2022 - 2023 📍 Perundurai, India

- Wonders of Handmade is a web-based platform designed to promote Indian handicrafts by showcasing traditional art forms, artisans, and their products. Built using **HTML, CSS, and Bootstrap**, the website offers a visually appealing and user-friendly interface that highlights India's rich cultural heritage.

Travel Agency

📅 2024 - 2024 📍 Erode, India

- I have successfully developed a user-friendly project with a Vite and React.js frontend, paired with a PHP backend.
